Lecturer TAFE SA – Foundation Skills (SEE Program)
SACAL Executive Committee Member
ACAL Presentation 2014
E-learning engagement

What we will cover

Websites

Apple based (iOS) apps for use on iPad or iPhone

Android apps for use on tablets/smart phones (Samsung)

Windows based apps
How can this work?

Experimentation time

Group discussion

Song Lyrics record sheet

English website record sheet

Maths website record sheet
iOS apps
(Apple – iPad, iPhone)
Android apps for Tablets and smart phones (Samsung)

Remote control
Abbott and Costello
Interpretation?
Understanding the process
Different ways of learning
Multiply two 2 digit numbers between 10 and 20

14 \times 12 = 168

In the example we’ll multiply 14 by 12

a) Subtract 10 from each number and write below

b) Add two diagonal numbers and write next to = sign – it doesn’t matter which ones you use (hundreds and tens)

c) Multiply the two bottom numbers and write next to c (units)
Multiply two 2 digit numbers between 10 and 20

In the example we’ll multiply 11 by 15

a) Subtract 10 from each number and write below

b) Add two diagonal numbers and write next to = sign – it doesn’t matter which ones you use (hundreds and tens)

c) Multiply the two bottom numbers and write next to c (units)
Multiply two 2 digit numbers between 10 and 20

17 x 18 = 25
Subtract 10
7

In the example we’ll multiply 17 by 18
a) Subtract 10 from each number and write below
b) Add two diagonal numbers and write next to = sign – it doesn’t matter which ones you use (hundreds and tens)
c) Multiply the two bottom numbers and write next to c (units)
